May 25, 2019.

AFRICAN UNION DAY 2019 GHANA MUST LEAD AGAIN

The Convention People's Party, CPP wishes the citizens of Ghana and Africa on the whole, a happy African Union Day. We do so recalling the pioneering role this nation played in bringing about the formation of the parent Organization for African Unity, OAU in 1963 in Ethiopia under the leadership of the nation's founder.

In conveying this message of goodwill and commemoration, we wish to remind all Ghanaians particularly the Nana Addo Dankwa Akufo-Addo led government that Ghana has an utmost responsibility to lead in realizing the dream of our forebears.

As echoed at independence through the NEVER DYING words of the nation's founder, Osagyefo Dr. Kwame Nkrumah, "the independence of Ghana is meaningless unless it is linked up with the total liberation of the African Continent." Our independence must be made meaningful in the full realization of Africans taking commanding heights and control of our resources, both human and material.

We urge the President to continue the efforts at pursuing the nation's founding dream through tactical and cultural diplomacy bearing in mind that most of our differences were artificially engineered to subjugate and keep us divided. We must first, liberate our minds and consciousness to rise above the denials of our appalling realities and confront our past with optimism, determination and the unyielding spirit of NEVER AGAIN.

Ghana must lead in making Africa free. Africa must be free. Africans want our freedom, politically and economically.

Long live Ghana! Long live.
Long live the African Union dream! Long live.
Long live the undying words of Ghana's Founder! Long live.

James Kwabena Bomfeh Jnr
Ag. General Secretary
